

Python | Quant | UQER

taotao.li@datayes.com

06/02/2016

『06.02』 1. Python Basics		
『06.02』 5. First Show of Sklearn		
『06.02』 6. Python Quant UQER		
『06.02』 3. First Show of Numpy		
『06.02』 2. First Show of Pandas		
『06.02』 4. First Show of Matplotlib		

Agenda

1

Python ! What ? Why ?

2

Python for Data Analysis

3

Python for Finance 『 Quant Topic 』

4

Demo

5

Q & A

Agenda

1

Python ! What ? Why ?

2

Python for Data Analysis

3

Python for Finance 『 Quant Topic 』

4

Demo

5

Q & A

Python ! *What* ? Why ?

Computer Programming Language

Python ! *What* ? Why ?

Low Level

X86 Instructions, Shell

High Level

C, C++, JAVA, *Python*, Matlab

Analytic

Python, SQL, Matlab, R

Python ! What ? *Why*?

High Level

Building Applications

Analytic

Do analytics

Python ! What ? *Why*?

Q & A

Python for Data Analysis

IP[y]: IPython
Interactive Computing

Python for Data Analysis

- pandas : Birth at AQR; Aiming at processing financial data
- sklearn : Machine learning library
- matplotlib : Data Visualization
- numpy : Processing, optimization, statistics and so on
- scipy : Algebra, N-array algorithms

Python for Data Analysis
